# UBER FREIGHT

Welcome to Uber

**Finding loads and getting paid for them is easier than ever.**

Starting Out

Sign in to the app using the login and password you received. During setup, you'll see a prompt to share your location. Tap Turn On to activate location sharing. This feature allows you to be paid for any qualifying accessorials.

Finding loads

All available loads will be shown on the home screen. Tap Local, Short, and Long to filter loads by distance. Scroll up to see the full menu and filter trips by pickup date, end location, and more.

Booking trips

Tap on a load to see the load details. Tap the blue Book Load to accept pickup. Confirmation will be sent to your email address.

If there is sufficient travel time between bookings, you may book additional loads.

Getting paid

Uber Freight pays carriers within 7 days following proof of delivery, transmitted by direct deposit. Uber Freight doesn't charge fees or factoring charges. Accessorial rates can be found at freight.uber.com/faq.

Have questions? Our team is here to help.
